KENNEDY RAFAEL DA SILVA RAMOS

Full Stack Developer | Python • Flutter • APIs

Registro, São Paulo, Brazil • +55 (13) 99778-1009 • kennedyrafaelsilvaramos@gmail.com
Portfolio: kennedyramos-dev.vercel.app • GitHub: github.com/KennnedyRamos • LinkedIn: linkedin.com/in/kennedy-silva-ramos-566b00150/

PROFESSIONAL PROFILE

Full Stack Developer focused on Python and Flutter, with hands-on experience building REST APIs, web applications, and mobile applications. Experience with FastAPI, Flask, React, Firebase, PostgreSQL, and service integrations. Graduated in Systems Analysis and Development (FACENS, 2025) and currently pursuing a postgraduate degree in Data Analytics and Artificial Intelligence. Also brings professional experience in IT support, systems, data analysis, performance indicators, and process improvement — including an operations management platform he built and uses in his daily work — providing a practical, problem-solving-oriented approach to software development. Seeking opportunities in Full Stack Development, Python Backend, or Flutter Mobile Development.

PROFESSIONAL EXPERIENCE

Ribeira Beer Transportadora Ltda. (Ribeira Beer / Ambev) — Sales Assistant

Mar 2025 – Present | Registro, São Paulo, Brazil

- Customer service and support for operational and commercial demands.
- Monitoring performance indicators and analyzing data to support operations.
- Use of Power BI and Promax routines to query, update, and monitor operational information.
- Support for process improvement and organization of operational activities.
- Built and uses daily **Gestão Operacional**, a full stack platform (React, FastAPI, PostgreSQL) that centralizes tasks, deliveries, pickups, equipment loans, and equipment inventory.

Previous IT / Support Experience — Internship

Experience supporting users, systems, and technical problem resolution.

- User and system support.
- Troubleshooting and support for process improvements.

FEATURED PROJECTS

Operations Management Platform (Gestão Operacional) — in use at Ribeira Beer

React • FastAPI • PostgreSQL • Supabase

Full stack platform with global database search, role-based permissions with JWT, streaming CSV imports of up to 1 GB, Excel reports, and OCR label reading.

BarberKR — Scheduling app

Flutter • Firebase • Cloud Functions

App with customer and barber profiles, transactional booking, chat, push notifications, and Pix/Mercado Pago payments.

RSI Radar — RSI Analysis API

Python • Flask • PostgreSQL • Docker

REST API and worker that compute crypto RSI(14) from Binance data, with PostgreSQL history, a dashboard, and Telegram alerts.

Equipment Control App
Flutter • Firebase • Firestore
Android app for equipment and marketing materials, with authentication, permissions, real-time CRUD, and Excel export.

TECHNICAL SKILLS

Mobile	Flutter, Dart, Firebase, Firestore
Backend	Python, FastAPI, Flask, REST APIs
Frontend	React, JavaScript, HTML5, CSS3, MUI
Data	PostgreSQL, MySQL, Power BI
Tools	Git, GitHub Actions, Docker, Linux
Other	API integrations, JWT authentication, CRUD, layered architecture, automated testing

EDUCATION

Postgraduate degree in Data Analytics and Artificial Intelligence — in progress

Technology in Systems Analysis and Development — FACENS — completed Dec 2025
Academic background focused on software development, databases, programming, and information systems.

COURSES & CERTIFICATIONS

- Flutter Development — Google Skills Boost
- Python — SENAI
- Cybersecurity — Santander Open Academy
- Front End React — Adah Tech
- Back End Java — Adah Tech
